Customer Reviews

This book is a practical application of the most important principles of missiology written with Latin American Christian leaders, trainers and missionaries in mind. The book guides the reader through theological, cultural and strategic principles to establish and multiply churches in another culture. It includes an analysis of world Christianity and its growth. Three chapters give the reader a set of the best principles and tools for introducing and proliferating change in another culture. It also includes a chapter outlining principles for learning any language. Three chapters are a practical guide for applying the principles of strategic planning to the task of multiplying churches in the mainstream of other cultures.

This is a classic for Latin America missions. It is a "must have" for anyone who is serious about understanding missions strategy.
