Customer Reviews

Billionaire Romance is an amazing erotic book with a great story line. It shifts purpose of perspectives with various individuals which will make you feel and know the character better and more profound. I enjoyed this book on account of how the story streams. The written work is likewise great and it resembles the writer is really taking you there in the situation. It gives little shivers on my heart. For each part, I get energized so much and just couldn't sit tight for the following one. Recommended to all.

The romance and mystery was blended very well which makes it really exciting to read. I was actually able to finish this in just one sitting since my concentration was completely on the story. I fell in love with the characters and their development as well as the progress of their romance as the story went on. This has totally entertained me until the end.

Anna has that unique type of writing. Most authors take time to set the scene before they introduce the characters. Anna doesn't insult your intelligence by slowing you with the picturesque 'boring' set up. I was hooked the first page. I got this book because I wanted to expand my romance horizon with my action books. I got it from a woman's perspective. Since men won't ask a woman how she feels because they think they would lose their 'macho card', they really wouldn't know how. Since my girl works in the Peace Corps overseas, I can't ask her immediately. I'm happy I got the literary mechanics from Anna. thank you.

This is an excellent guide. The writing is also very good and it's like the author is actually taking you there in the scenario. You will have this feeling of wanting to close your kindle cloud reader for awhile. After fighting the struggle of the flat story-line, you can still smile and be thankful that you are able to finish this box set of Billionaire Romance. Extremely rich person Romance books are intriguing. Yes, it is fascinating, in any case, in the later part of the books, there is a level story-line that makes it exhausting. Overall, this book is well written and it's very interesting. Highly recommended.

This book is a completely captivating and wonderfully written romance filled to the brim with forbidden love, heartbreak, heated passion and sweet romance and most certainly, hope and

redemption. If you're looking for an action pack, shoot 'em up adventure, then this isn't the book for you but if you're looking for an exceptional love story with taboo love, a journey for hope and sensitive yet well written subject matter, then this is definitely the book for you. Fabulous entertainment and an awesome read!

Another great story from one of my favorite go to authors who is usually on my preorder list due how she never disappoints me because her books are always a great read. I love the characters in her books as well her series usually interacts with characters that I have come to love from other series. The men in them are always very handsome domineering successful alpha type men who seem to have no clue how to have a relationship but are definitely loyal and loving when they do find that one individual for them.

It is the story of a girl who has to struggle in her life. Lucy willis is the central character of this story who has to suffer as she not enough money to live a good life. Lucy willis had intellect, street smarts, but what she didn't have is money. The story has some romanticism. When you will read the book, it will give you pleasure. I have read and enjoyed the book.

Whoa. Short but ... intense. In a good way. I loved this little book and so didn't want it to end. The author has a way with imagery. She just sucked me in and completely captivated me until the last page. The last unfortunate page. Can't wait for more. Hopefully this is only the first of many Anna Collins' books and ...
