This is a straight-ahead lustfest. Three couples who are friends meet for a pool party one night. Each couple has discussed privately spicing up their sex lives, including fantasizing about seeing their spouses with others. The wives, talking in advance, plot to wear their sexiest bikinis to get things rolling, and it doesn't take long. There are things I do and do not like about Archer's style. She gets the sex going pretty quickly, but spends more time on each character's thoughts about being there than she does on the action. This seems to be an occupational hazard in hotwife genre books. I tire after a while about how Husband thinks Wife is feeling about how Husband feels about how Wife feels about getting nailed by Husband Number 2. Perhaps women readers prefer more relationship contemplation, enjoying the greater context, or thinking it lends believability. Being

a male, I like mine lubricious. On the positive side, her characters seem real and accessible â “ regular people. And this book added the expression "permanent spank bank" to my vocabulary.

A winner of a hot book as always. I really have loved every story of Ms Archer's that I've read. All three of the couples in the book are ready for a hot adventure and I found myself turning pages quickly to see what was coming next. The sex is hot and the intensity builds all the way to the end. Speaking of the end....I would like a follow up to this one. Who gets together and what happens between these couple next? Why can't I have friends and a party like this one. We're working on that..... Lexi keep writing. I'll always be looking for the next one!

Wow this was an outstanding book by Lexi Archer. All three couples were amazing. The way she broke down the book into sections for each individual was a thing of beauty. I'll read this again for sure.

Another great book by Lexi Archer. This one took a while to get published but was well worth it. Each character in the book put their own spin on what was happening. This book started off with bang and just kept going until the end. I just cant seem to say enough good things about Ms Archer's writing. If you like the hot wife genera then you should follow Lexi Archer, she has yet to disappoint me in her writing. I received an advance copy of this novel for free in exchange for an unbiased review.

The action is hot!! This is a quick and enjoyable read. The action is fast and furious. The story line builds quickly and as I stated earlier it is very hot. I could have benefited from a little more character development, but overall it is a fun read.
