Synopsis

A bird in the hand for two men in the bush! When two hot, dominating alpha men like Leon and Travis see something they want, they never fail to get it. In business, they're highly-successful professionals, but when it comes to the stunning young woman who caught their eye, they're ruthless. Courtney Colby is their obsession. They've stalked her for months and now they know her every move, her habits and even her guilty pleasures. Especially her guilty pleasures. Courtney's vulnerable, alone in the bush, hiking to a remote hut. The abandoned shelter is her secret sanctuary. Her favourite hideaway. She should be more careful, but how can you hide if you don't know you're being hunted? This is an edgy story of lust, obsession, and submission. Reader Trigger Advisory: The story themes may contain triggers for those who don't enjoy situations of forced submission and dubious consent. For those of you who love it, or are willing to read a little out of your comfort zone, you'll discover a redeeming twist at the end.

The book had 712 locations on my kindle. The book was about a woman, named Courtney and 2 men, Leon and Travis. Leon and Travis, who appeared to be obsessed with Courtney, decided to

stock and kidnap her to be their own sex toy. The book contained one long hot, hot sex, oral sex and anal sex scene with M/F/M sexual interaction.. The book contained no character development, no romance, just sex with a bit of a twist, at the end, which I did not see coming, The end.

I loved reading Ambushed (The Capture Games Book 1), all about Courtney a smart business woman who owns a production film company with two other billionaires Travis & Leon. She's a hot mess but loves to read on her kindle and loves reading the naughty stories. She also loves writing her own stories as well, and loves acting them out! The author wrote a very hot and steamy story that will get your juices flowing! The characters make said story come to life! I loved reading it and can't wait to read book 2!

I loved this shocking, surprising, sexy series. The Capture Games is a great story line. Ambushed is my favorite. Very steamy with a happy ending. I'd say entertaining but it's more than that. A thrilling erotic.

Ambushed was sexy little tale about fantasy forced sex. It's told from the points of view of all 3 players. It was a titillating read but I didn't like how abruptly the author switched from the actual sex scene to the "surprise" ending. It made the story feel rushed. I actually would have like more details about the actual sexual encounter before the ending was sprung on me. Given the ending, I'm surprised by and/ or don't understand the complaints about not liking a story in which a rape victim starts to enjoy the situation. As anyone who has read a number of stories in the erotic genre should expect, the plot was simple and there wasn't much in the way of character development. However, at 55 pages this story was both longer and more detailed than the majority of the books in this genre. The writing style was good and I really didn't notice any typos which is always an unexpected plus. I don't plan on reading anything else in this series because fantasy rape games or role playing isn't what I'm looking for. Under 's rating system 3 stars means "it okay and for me it was just that.

I DNF it. I just didn't find it erotic in anyway. I can't explain it. The way the two guys go about stalking her and going about taking her was sexually explicite but lacked depth and sexuality. I just couldn't get into it and just gave up after a while. Maybe it was how it was written with three POV or maybe the description of what each other was doing instead of what they were feeling just didn't do it for me. Either way, not my cup of tea. Gave it a 3 because I was indifferent to this novel.

While this type of story is not my usual pick for reading, it was recommended to me and I thought to give it a try. The story is well-written, and the characters are distinctive. The little twist at the end was unexpected, but added a great deal to the story. Non-consensual sex is not my thing, but I imagine role-playing could add a bit of spice to a relationship.

WOW!! Didn't see this book coming the way that it did. Mindblowing sex with so much build up you just are waiting for the drama to unfold. I guess you could say that the drama unfolds in the makeshift bedroom or at the end, but if my life had that kind of drama in it, sign me up for a lifetime. Amazing read! Hot doesn't do it justice! And just WoW!!! ARC Review

There is very little back story to this. It just jumps into the last minute planning of a rape scene. There is a last minute reveal which made this story palatable, It would ruin the the story to say more.
