Moral Imperative: A Patriotic Thriller (Corps Justice Book 7)

Synopsis

A growing Islamic threat... An army ignored by the world... A Marine who won't sit on the sidelines... The Islamic State of Iraq and Levant (ISIS) is capitalizing on the neglect of war-weary world leaders. No one in Iraq is safe. Christians herded like cattle. Whole communities torn apart. Marine Cal Stokes has had enough. With the quiet support of U.S. President Brandon Zimmer, Stokes and his closest friends return to the Middle East to take the battle to the enemy even if it means being cut off from ever coming home. This is about what's right, not what's popular, a moral imperative...

Once again, C. G. Cooper has shown he knows his way around the written word. I have been reading his work since Back to War, with short side trips to the prequels God-Speed and Running. He is very well versed in character development, creating people you are interested in and care about. Even characters who are only briefly in the story line are portrayed in such a manner to make you worry about them and their families. This is a book about evil in the world and how men of character deal with that evil. There are three parts to the Corps Justice Code of Conduct; this book

deals primarily with the second part "We will protect the weak and punish the wicked". The main thrust of the story is the US reaction to ISIS, after their stunning gains in Iraq. (Now where have I read about that recently? I remember...today's newspaper!) Only in this case we have a solution to the problem and a President (who has grown immensely in this series) not afraid to order that solution. Here is a quote from President Zimmer in this story, "Effective immediately, my administration will do everything in its power to protect the American people and its allies. This is not a question of money or power. This is a battle between right and wrong, between good and evil. We will win. This will not be a fight; this will be a tsunami overwhelming your forces wherever they might be." If you have read C. G. Cooper's other works, buying this book is a no-brainer. You don't even have to read my review, you will buy this book. However, if you are new to the Corps Justice series, please listen to an old vet and genuine book geek. This man knows how to write and he will take you places that will make you shiver and make you cheer!
